Wall Mount FODP

Description:

Indoor Fiber Optic Wall Mount FODP provides a high density wall mount solution for the indoor application in the fiber optic networks. Fiber Optic Wall Mount FODP manages fiber optic cable termination and protects fiber splices and passive adapters and connectors in a limited space in Fiber to the building network. Fiber Optic Wall Mount FODP is for Optical fixation, fusion and patching on wall.

Features:

> ➢ Easy to maintain
> ➢ Wall Mounted(Wall Mountable Kit Included)
> ➢ For Indoor or Outdoor Use (Weather proof)
> ➢ Includes a panel with SC Duplex/Simplex adaptors
> ➢ Cable entry points are fully protected and easily accessible
> ➢ High quality, compact and easy to modify compared to metallic enclosures
> ➢ Suitable for the fusion splice
> ➢ The capacity of fiber up to 12,24,48,96,120,144 fibers, etc.

Specifications:

Housing Material	Cold rolled sheet
Applicable Adaptor/pigtails	Simplex SC Adaptors & SC-UPC Pigtails(Fully loaded)
Capacity	12-144 fibers
Cable entry points	8
Installation Method	Wall mount with full accessories
Splice Tray	12 fibers (in each try)
Applicable Environment	Both Indoor & Outdoor
Dimension	380(H)*310(W)*150(D)mm
